Health Advice

Before you travel you should take advice about your specific needs as early as possible.

The Foreign and Commonwealth Travel Advice Unit has up-to-date information for most destinations - visit www.gov.uk/foreign-travel-advice select the destination you require and click on 'health'.

Further travel health advice can be found on <https://travelhealthpro.org.uk/countries> and www.fitfortravel.scot.nhs.uk.

Vaccinations:

You should consider having any vaccinations at least 6 weeks before you travel as some take time to have effect.

For more information on vaccinations visit the National Travel Health Network Centre <http://nathnac.net/>

Health Insurance Card (EHIC):

If you are visiting a European Union (EU) country it is recommended that you should apply for a free European Health Insurance Card (EHIC) and take it with you when you travel. You can obtain an application form from a main Post Office or you can apply online. Some travel insurance policies require you to obtain an EHIC card – please check before you travel.
